CUSTOMS TARIFF.

As in force from 24th February, 1882.

1.—*Resolved*, That it is expedient to provide that the value of all Bottles, Flasks, Jars, Demijohns, Carboys, Casks, Hogsheads, Pipes, Barrels, and all other vessels or Packages manufactured of Tin, Iron, Lead, Zinc, Glass, or any other material, and capable of holding Liquid; Crates, Barrels and other Packages, containing Glass, China, Crockery or Earthenware, and all Packages in which goods are commonly placed for home consumption, including Cases in which Bottled Spirits, Wines or Malt Liquors are contained, and every package, being the first receptable or covering, enclosing goods for purposes of sale, shall in all cases, not otherwise provided for, in which they contain goods subject to an *ad valorem* duty, be taken and held to be a part of the fair market value of such goods for duty, and when they contain goods subject to specific duty only, such Packages shall be charged with a duty of Customs of twenty per cent. *ad valorem*, to be computed upon their original cost or value; and all or any of the above Packages described as capable of holding Liquids, when containing goods exempt from duty under this Act, shall be charged with a duty of twenty per cent. *ad valorem*; but all Packages not hereinbefore specified, and not specially charged with duty by any unrepealed enactment, and being the usual and ordinary Packages in which goods are packed for exportation only, according to the general usage and custom of trade, shall be free of duty.

2.—*Resolved*, That it is expedient to provide that on all goods imported into Canada, subject under this Act or any other Act to *Ad valorem* duty, upon which a drawback of duties has been allowed by the Government of the country where the same were manufactured, the amount of such drawback shall in all cases be taken and considered to be a part of the fair market value of such goods and duty shall be collected thereon; and in cases where the amount of such drawback shall have been deducted from the value of such goods upon the face of the invoice under which entry is to be made, the Collector of Customs or proper officer shall add the amount of such deduction, and collect and cause to be paid the lawful duty thereupon, and the fair market value of all goods, wares and merchandise imported into Canada, shall be understood to be the ordinary wholesale price at which the

same are sold for home consumption in the country where they are purchased or manufactured without deduction of any kind because of any drawback paid or to be paid thereon, or because of any special arrangement between the seller and purchaser, having reference to the exportation of such goods, or the exclusive right to territorial limits for the sale thereof, or because of any royalty payable upon patent rights, but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained: Provided that nothing herein shall be understood to apply to general fluctuations of market value.

3.—*Resolved*, That it is expedient to provide that any or all of the following articles, that is to say: Animals of all kinds, green fruit, hay, straw, bran, seeds of all kinds, vegetables (including potatoes and other roots), plants, trees and shrubs, coal and coke, salt, hops, wheat, peas and beans, barley, rye, oats, Indian corn, buckwheat, and all other grain, flour of wheat, and flour of rye, Indian meal and oatmeal, and flour or meal of any other grain, butter, cheese, fish (salted or smoked), lard, tallow, meats (fresh, salted or smoked), and lumber may be imported into Canada free of duty, or at a less rate of duty than is provided by this Act, upon proclamation of the Governor in Council, which may be issued whenever it appears to his satisfaction that similar articles from Canada may be imported into the United States free of duty, or at a rate of duty not exceeding that payable on the same under such proclamation, when imported into Canada.

4.—*Resolved*, That it is expedient to provide that if at any time any greater duty of Customs should be payable in the United States of America on tea or coffee imported from Canada than on tea or coffee imported from any other country, then the Governor in Council may impose on tea or coffee imported into Canada from the said United States, an additional duty of Customs equal to the duty payable in the United States on tea or coffee imported from Canada: Provided that tea or coffee imported into Canada from any country other than the said United States, but passing in bond through the United States, shall be taken and rated as a direct importation from the country wherever the tea or coffee was purchased.

5.—*Resolved*, That it is expedient to provide that an allowance may be made for deterioration by natural decay or breakage upon all perishable and brittle goods imported into Canada, such as green fruits and vegetables, crockery, china, glass and glassware, provided such damage is found to exceed twenty-five per cent. of the value thereof, upon an examination to be made by an appraiser or proper officer of Customs, at the first landing, or within three days of such landing; but such allowance shall be only for the amount of loss in excess of twenty-five per cent. of the whole quantity of such goods contained or included in any one invoice; and provided the duty has been paid on the full value thereof, a refund of such duty may be allowed and paid in the proportion and on fulfilment of the conditions above specified, but not otherwise, on application to the Minister of Customs.

6.—*Resolved*, That it is expedient to provide that in determining the dutiable value of merchandise, except when imported from Great Britain, there shall be added to the cost the actual wholesale price or fair market value at the time of exportation in the principal markets of the country from whence the same has been imported into Canada, the cost of inland transportation, shipment and transshipment, with all the expenses included, from the place of growth, production or manufacture, whether by land or water, to the vessel in which shipment is made, either in transitu or direct to Canada.

7.—*Resolved*, That it is expedient to provide that the Governor in Council shall from time to time establish such regulations, not inconsistent with law, as may be required to secure a just, faithful and impartial appraisal of all goods, wares and merchandise imported into Canada, and just and proper entries of the
